Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

1. (Currently amended) A cartridge for use with a digital printing device, the cartridge including:
 - a first casing portion for housing print media; and,
 - a second casing portion for housing a supply of ink, the second casing portion ~~being segregated into~~ defining a part of each of a plurality of distinct chambers for storing a supply of different colored inks, each ink storage chamber having a corresponding ink outlet closed with a pierceable seal; ~~wherein, and~~
 - a deformable film sealingly connecting the first and second casing portions so as to define a remaining part of each of the storage chambers is at least partially defined by
 - respective collapsible membranes; such that,
 - wherein the deformable film is configured to provide each of the storage chambers have with ink storage volumes that reduce with ink usage.
2. (Original) A cartridge device according to claim 1 wherein each ink outlet is in the form of a nozzle adapted to connect with a corresponding ink connection means provided on the printed device with which the cartridge is to be used.
3. (Cancelled)
4. (Cancelled)
5. (Original) A cartridge according to claim 1, the cartridge including a print media exit opening arranged in said first portion of the casing; and
 - a transport assembly arranged at least partially within said first portion of the casing and being disposed upon operation to pick up and drive a sheet of said print media through said exit opening.
6. (Original) A cartridge according to claim 5 wherein said transport assembly includes:
 - a drive shaft, pick up rollers rigidly connected with said drive shaft; and
